

# UltraScape takes paving to the 'Next Level'

Next Level Landscapes Ltd have used UltraScape's BS 7533 Mortar Paving System to transform a private garden in Bolton into an outdoor utopia.

CONTRACTOR: NEXT LEVEL LANDSCAPES

MATERIALS USED: BS 7533 SYSTEM

Experts in driveway and garden makeovers, Next Level Landscapes Ltd were given the exciting task of transforming the outdoor space of a new build property in Bolton.

The homeowners dreamed of remodelling their lawn to create a garden paradise. They wished for a modern and relaxed seating area to entertain guests around a state-of-the-art gas fire pit.

Next Level Landscapes Ltd used UltraScape's BS 7533 Mortar Paving System to install the beautiful smoky grey porcelain and silver picture frame paving border, both of which were supplied by Sandstone Supplies.

Comprising of pro-bed HS bulk bedding mortar, pro-prime slurry primer and flowpoint rapid set grout, UltraScape's paving installation system is the number one choice for all domestic and commercial projects.

Pre-blended for ease of use, pro-bed HS fine bedding mortar provides the ultimate laying course for all types of paving – including the porcelain paving chosen for this project. **"pro-bed HS is an amazing product not only for its strength benefits, but it's also fast setting which helps speed up the job by allowing you to walk on the paving a lot sooner than usual"** – Jordan at Next Level Landscapes Ltd.

Formulated to provide an exceptional bond between your paving elements and pro-bed HS, pro-prime slurry primer eliminates costly failures caused by general wear and tear. Next Level Landscapes Ltd have used pro-prime a number of times and understand how important this step is when installing paving. Jordan remarked: **"I love the fact that it gives me peace of mind that the paving slabs aren't going to come loose over time"**.

To complete the installation, flowpoint smooth in Charcoal was used to joint the porcelain pavers. With an initial set after just 15 minutes, and a walk on time of one hour, it is unsurprising that flowpoint has become synonymous with fast application, cost-effective and robust jointing.

On finishing the project, Jordan Clayton, Owner of Next Level Landscapes Ltd. commented: **“flowpoint is our go to product when it comes to jointing all our paving. Like the rest of the materials, I love how it gives me confidence that the products will stand the test of time, allowing homeowners to enjoy their garden for years to come.”**

The homeowner was over the moon with their garden makeover. With a beautifully stylish area for entertaining and relaxing, the owners are sure to be the envy of all their guests.

Choose UltraScape's proven and certified BS 7533 Mortar Paving System for the outstanding performance and assurance that comes with a UKAS seal of approval – you can't afford not to!
