

UltraFloor is just the ticket for First Cymru Ltd

Simple Flooring, have installed 55sqm of safety flooring at the Swansea branch of First Cymru

CONTRACTOR: SIMPLE FLOORING

MATERIALS USED: DPM IT, LEVEL IT TWO

First Cymru Ltd is the largest bus operator in South and West Wales. As part of their ongoing work with First Cymru, this refurbishment project is part of a larger commitment Simple Flooring have made to improve the quality of staff areas across Wales.

The biggest challenge facing the Simple Flooring team was the extremely porous substrate. However, Simple Flooring's extensive experience meant this obstacle was easily overcome.

With a long history of using UltraFloor subfloor preparation materials, Simple Flooring knew that Level IT Two was the leveller of choice to create a perfect substrate for the installation of the Alto Aquarius Otter safety flooring.

To begin, Simple Flooring poured DPM IT damp proof membrane across the entire 55sqm area and left it to cure for approximately 18 hours. Once dried, Level IT Two was then applied to an even, 8mm depth.

DPM IT is a two component, solvent free epoxy resin system for use as a surface damp proof membrane. Designed to provide protection against subfloor moisture, DPM IT has a pot life of 45 – 75 minutes, a cure time of 5 hours and boasts a 98% RH floor moisture tolerance.

There are many reasons why Level IT Two has become UltraFloor's most popular floor leveller. Its exceptional flow characteristics make it a very easy material to apply to a variety of subfloors in both commercial and domestic flooring projects. Its low odour formulation means this fantastic all-rounder leveller is equally suited to confined areas, proving particularly popular in the education, health and hospitality sectors.

With a set time of 2.5 hours, Level IT Two can receive bonded floor coverings after just 8 hours, making it an ideal choice for projects with a tight deadline. What's more, because Level IT Two is available as a two component system, it takes the guesswork out of mixing, reducing site errors and guaranteeing a perfect application every time.

On completing the project, Simple Flooring commented: **“UltraFloor is our go-to. This project was in Swansea but UltraFloor is readily available at all our wholesalers which is great as it means we can deliver consistent results no matter where we are working. Level IT Two is durable and cost-effective – a win-win for everyone!”**
